Lagos, Nigeria

Senior Frontend Engineer

Portfolio | **GitHub** | **LinkedIn**

Results-oriented Frontend Engineer with 5 years of experience delivering performant, scalable, and user-centric web applications. Proficient in optimizing ReactJS applications and driving front-end performance for large-scale products. Adept at collaborating with cross-functional teams to ensure seamless user experiences, leveraging responsive design, accessibility best practices, and emerging technologies.

My strengths are proactive problem-solving and a keen eye for detail. I leverage research findings to identify potential challenges and actively test solutions during development, ensuring a polished and user-friendly final product.

SKILLS

Frontend Development
- ReactJS, Next.js, JavaScript, TypeScript (current learning), Tailwind, API Integration, Firebase, NodeJs, Performance Optimization.

Performance Optimization
- React memoization, code-splitting, lazy loading, Lighthouse performance analysis, and reducing bundle size.

Processes & Tools
- Version Control (Git), Testing (Jest, React Testing Library), CI/CD Pipelines, Webpack, Figma.

Soft Skills
- Problem-solving, Collaboration, Leadership, Customer-Centric Mindset.

EDUCATION

- Frontend Developer, Innkeeper Talent Accelerator, Lagos | 2022
- Jobberman Soft Skills Training | Oct 2020
- Google Digital Skills for Africa | Oct 2020

CORE COMPETENCIES

- Demonstrated success in scaling React applications for large user bases.
- Experience in asynchronous work environments using tools like Slack and Loom.
- Strong investigative mindset, identifying and resolving complex front-end performance issues.

CAREER EXPERIENCE

Innkeeper Talent Accelerator   **Jan 2023 – Present**
Frontend Developer
- Optimized learning platform performance, increasing page load speed by 30%, and enhancing user engagement.
- Automated platform processes, reducing onboarding time by 50%.
- Proactively identified and resolved UI bottlenecks, ensuring a seamless experience for 1,000+ users.

Sonia Audu Couture (SACoutureNG)   **Oct 2023 – Sept 2024**
Frontend Developer (Freelance)
- Engineered the Sonia Audu Couture E-commerce App, integrating a seamless shopping experience with secure payment processing, order management, and customer booking for bespoke fashion services.
- Developed a dynamic product catalogue with filtering, search, and personalized recommendations to enhance user engagement and drive conversions.
- Optimized the platform with a mobile-responsive design, fast load times, and a user-friendly checkout process to improve customer retention and sales.

Elite Careers Solutions   **May 2022 – Sept 2022**
Frontend Web Developer
- Optimized a Laravel web app, achieving a 20% reduction in initial load time.
- Developed responsive event publicity websites, handling high traffic during live events without performance degradation.
- Streamlined content loading through efficient API integration, improving data fetching times by 40%.

8thGear Partners Ltd   **Oct 2020 - April 2022**
Frontend Developer (Lead)
- Spearheaded the development of four scalable web applications, increasing user engagement by 25%.
- Conducted code reviews and implemented performance best practices, reducing bundle size by 35%.
- Introduced a performance monitoring system, identifying and addressing critical bottlenecks across multiple projects.
